

SAFETY DATA SHEET
according to Regulation 1907/2006/EC
POLI KORUND

1. Identification of the substance / Preparation and Company:

- 1.1 Product identifier
Commercial product name: POLI KORUND 250 µm, 110 µm, 50 µm
- 1.2 Uses of the product: Mineral blasting abrasive for industrial use.
- 1.3 Details of the supplier of the voluntary product information

Manufacturer/supplier

Polident d.o.o.,
Dental Products Industry
Volčja Draga 42, 5293 Volčja
Draga,
Slovenija
Tel.:00386 5 3304840,
Fax: 00386 5 3304870

E-mail: polident@polident.si

Information provided by

00386 5 3304859

Emergency telephone number

00386 5 3304840

2. Hazards identification

- 2.1 Classification: Not applicable.
- 2.2 Label elements: Does not require labelling under the CLP Regulation (EC) No. 1272/2008. But please take note of this product information.
No risk of silicosis during application.
- Safety instructions: Possible dust exposure due to fine dust particles.
- 2.3 Other hazards: Not known.

3. Composition/information on ingredients

Ingredients	NK (Mean values}	NK (Mean values}	EK (Mean values)	EK micro (Mean values)	EKR (Mean values)
Aluminium oxide (Al ₂ O ₃)	95.65%	95.77%	99.73%	99.69%	99.30%
Titanium dioxide (TiO ₂)	2.42%	2.79%	-/-	-/-	-/-

Chemical characterisation	EINECS	CAS No.	(1) REACH Registration No. (2) CLP Notification No	Classification according to CLP Regulation (EC) No. 1272/ 2008	
				Hazard classes Hazard categories	Hazard statements
Aluminium oxide (AbO _i)	215-691-6	1344-28-1	1) 01-2119529248 -35-0010 (2) 02 -2119709295-38-0000	-/-	-/-
Titanium dioxide (TiO ₂)	236-675-5	13463-67-7	(2) 02-2119879066 -28-0000	-/-	-/-

Substances listed on the so-called 'Candidate List of Substances of Very High Concern (SVHC) for authorisation' of the European Chemicals Agency (ECHA) are not intentional ingredients of this product. It is therefore not to be expected that those substances are present in quantities of > 0.1% in the product.

Hazardous substances: No dangerous ingredients.
Substances with prescribe EC exposure Does not contain substances with EC exposure limits.

limits:

4. First aid measures

Please also take note of sections 8 and 16 of this product information.

- 4.1 Description of first aid measures:
- | | |
|----------------------|---|
| General information: | Consult a doctor in case of health disorders. |
| After inhalation: | Provide the affected person with fresh air. Consult a doctor in case of irritation in of the respiratory tract. |
| After eye contact: | Remove contact lenses and rinse the eyes with open eyelids for 10 minutes under running water.
If necessary, consult an ophthalmologist. |
| After skin contact: | Wash with water and rinse. |
| After swallowing | Rinse mouth and drink plenty of water. Do not induce vomiting. If you feel unwell, seek medical advice. |
- 4.2 Most important symptoms and effects, both acute and delayed: Not known.
- 4.3 Indication of any immediate medical attention an special treatment needed: Treat symptomatically.

5. Firefighting measures

- 5.1 Extinguishing media
- | | |
|---------------------------------|---|
| Suitable extinguishing media: | Product does not burn. Match extinguishing measures to ambient situation. |
| Unsuitable extinguishing media: | Not known. |
- 5.2 Special hazards arising from the product: Not known.
- 5.3 Advice for fire fighters: Match the firefighting measures to the environmental conditions.
- Additional information: Not known.

6. Accidental release measures

- 6.1 Personal precautions: Avoid dust formation.
- 6.2 Environmental protection measures: Not known.
- 6.3 Methods and materials for containment and cleaning up: Pick up mechanically and dispose of properly.
- 6.4 Reference to other sections: Refer to protective measures in section 7 and 8.
- Additional information: Not known.

7. Handling and storage

- 7.1 Precautions for safe handling:
- | | |
|---|---|
| Information on safe handling: | For safety reasons, it is recommended to use a protective sieve during filling. |
| Information on fire and explosion protection: | Avoid dust information.
No special fire protection measures are necessary. |
| Additional information: | Not known. |
- 7.2 Conditions for safe storage, including any incompatibilities
- | | |
|--|---|
| Information on storage conditions: | Always store product in dry conditions. |
| Requirements for storage rooms and containers: | No special requirements needed. |
- 7.3 Storage class VCI: LGK 13 (non-combustible solids)
- 7.3 Specific end uses: Aluminium oxide is used to manufacture or to use as blasting or abrasive medium.

8. Limitation and monitoring of exposure/ personal protective equipment

- 8.1 Control parameters
- | | |
|--|--|
| Occupational exposure limit values in the workplace and / or biological limit values | |
| Occupational Exposure Limits (OEL) in Germany for dusts | |
| Inhalable fraction (E) | 10 mg/m ² |
| Respirable fraction (A) | 1,25 mg/m ³ |
| With exceeding factor 2 each, re. TRGS 900 | |
| Community exposure limits | Country specific. Pleas inquire in individual cases. |

8.2 Limitation and monitoring of exposure

Appropriate engineering controls:

Technical measures and the application of suitable work processes have priority over the use of personal protective equipment.

Provide adequate ventilation. This can be achieved by local suction or general extraction.

Aluminium oxide is not a hazardous substance, thus only the general dust limit value applies.

Suitable assessment methods to verify the effectiveness of the protective measures taken include metrological and non-metrological determination methods as described in the Technical Rules for Hazardous Substances (TRGS) 4032 and BS EN 14042 "workplace areas, Guidelines for the implementation and application of processes for assessment of exposure to chemical and biological agents".

Personal protective equipment:

The use of personal protective equipment is dependent on the concentrations and quantity of hazardous substances in their execution in specific workplaces.

Respiratory protection:

Normally, no personal respiratory protective equipment is necessary. In case of insufficient ventilation or exceeded workplace limits, a protective breathing mask should be worn (FFP filtering half mask depending on the existing concentration).

Hand protection:

Glove material: Leather

Eye protection:

Tight-sealing protective eyewear (dust-protection goggles) in accordance with EN 166:2001.

Body protection:

With normal use, no body protection by half or full-body coverall and boots is required.

Information on industrial hygiene:

Minimum standards for protective measures when handling working materials are listed in TRGS 500.

Do not eat, drink, smoke or take drugs while using this product. Avoid contact with skin, eyes and clothing.

Remove soiled or soaked clothing immediately.

Wash hands before breaks and at end of work.

Protect skin by using skin creams.

Environmental protection measures:

See sections 6 and 7; no further action is required.

9. Physical and chemical characteristics

9.1 Information on basics physical and chemical properties

Appearance

Appearance:

angular

Physical state:

solid

Colour:

white / pink / brown

Odour:

odourless

Safety data:

Explosion hazard:

The product itself is not explosive; however, formation of explosive air/dust mixtures is possible

Lower explosion limit:

not known

Upper explosion limit:

not known

Vapour pressure:

not relevant

Specific gravity:

approx. 3.9 to 4.1 g/cm³

Flow time:

not relevant

Water solubility:

insoluble in water

pH value:

not applicable

Boiling point/range:

not applicable

Flash point:

not determined as product is not flammable

Melting point:

approx. 2 000 °C

Ignition temperature:

not determined as product is not flammable

The information about the explosion limits refers to Aluminium oxide. Please refer to the technical data sheet for other physical and chemical data.

9.2 Other information: None.

10. Stability and reactivity

10.1 Reactivity: Aluminium oxide is non-reactive and does not change with proper handling and storage.

10.2 Chemical stability: Aluminium oxide is chemically stable and does not change with proper handling and storage.

10.3 Possibility of hazardous reactions: No hazardous reactions known.

10.4 Conditions to avoid: No decomposition if used according to specifications.

10.5 Incompatible materials: No hazardous reactions known.

10.6 Hazardous decomposition products: No known hazardous decomposition products.

11. Toxicological information

11.1 Information on toxicological effects: According to current IFA reports the product contains silicosis-inducing, toxic and carcinogenic components. The indications given in section 8 of this product information must be observed.

Acute toxicity: No data on the product available.

Irritation: No data on the product available.

Corrosivity: No data on the product available.

Sensitisation: No data on the product available.

Repeated dose toxicity: No known toxicity of Aluminium oxide.

CMR effects (carcinogenic, mutagenic and toxic to reproduction): No carcinogenic effect according to IFA reports.

Summarised evaluation of the CMR properties: No known CMR properties.

Practical experience (relevant for classification and other observations): No data on the product available.

Carcinogenicity: No known carcinogenicity of Aluminium oxide.

Mutagenicity: No data on the product available.

Reproductive toxicity: No data on the product available.

Other information: Not known.

12. Environmental information

12.1 Toxicity: No known effects.

Ecotoxicity: For Aluminium oxide no environmental problems are to be expected when handled and used properly.

Fish toxicity: Harmful effects for aquatic organisms are not expected.

Aquatic invertebrates: Harmful effects for aquatic organisms are not expected.

Water plants: Harmful effects for aquatic organisms are not expected.

12.2 Persistence and degradability: Based on current experience, this product is inert and not degradable.

12.3 Bioaccumulation potential: No data available. Accumulation in biological materials is rather unlikely, as it is inert and insoluble.

12.4 Mobility in soil: Potential not known.

12.5 Results of PBT and vPvB assessment: Not relevant. The substances in this product do not meet the criteria for classification as PBT or vPvB.

12.6 Other harmful effects: Not known.

13. Disposal considerations

13.1 Waste treatment methods:

Product: Aluminium oxide. If recycling is not possible, waste must be disposed of in compliance with national and local regulations. Confirm the exact waste code with the disposer.

Waste Code according to European Waste 120117 waste blasting material other than those mentioned in

SAFETY DATA SHEET
according to Regulation 1907/2006/EC
POLI KORUND

- 13.2 Catalogue (EWC): 120116.
Packaging: National and local regulations must be followed.
Contaminates packaging: Packaging with Alumina residues can be recycled.
Cleaned packaging: Packaging can be reused after being cleaned or recycled.

14. Transport information

Aluminium oxide is no dangerous good.

15. Regulatory information

- 15.1 Safety, health and environmental regulations / legislation specific for the product.
EU regulations: Aluminium oxide is not subject to the Regulation 722/2012/EU {ADI-Free).
National regulations:
Water hazard class: Not hazardous to water, classification according to VwVwS, Annex 4.
Technical instruction on air quality (TA-Luft): Substances not mentioned by name.
Hazardous Incident Ordinance (12. BImSchV [German Federal Immission Control Regulation]): Substance not mentioned by name.
Solvents Ordinance (31. BImSchV [German Federal Immission Control Regulation]): Substances not mentioned by name.
Chemicals Prohibition Ordinance: Substances not mentioned by name.
Relevant Technical Rules for Hazardous Substances: Contains no hazardous substances.
Employment Restrictions: Not known.
Miscellaneous: Aluminium oxide is not subject to the VOC Regulation.
International regulations: All Aluminium oxide ingredients are listed with TSCA, AICS, DSL (NDSL), NEPA and PICCS and registered with MITI / ENCS under 1-23.
15.2 Chemical safety assessment: Not relevant.

16. Other information

Further applicable EC directives: Not known.
Restrictions on use recommended by the manufacturer: For industrial applicate only.
Other Information:

The product information in this documentation is correct to the best of our knowledge at the time of printing. The information is intended to provide you with advice on the safe handling of the product mentioned in this product information for storage, processing, transport and disposal. The information cannot be applied to other products. If the product mentioned in this documentation is in anyway tampered with i.e. mixed with other materials, processed or undergoes processing, the information as supplied in this document no longer applies to the new product unless expressly stated otherwise.

Changes since the last version: 2017-07-10 Revision
2018-07-17 Advice Protective sieve
2018-08-01 Regulation 722/2012/EU {ADI-Free).
